Volume 06 : Issue 02

DECEMBER-JANUARY 2010-11

...a glimpse to pursue upon it !!

A reckless journey by Sunderban People after the ravage by Aila, the destroying cyclone of the decade...is still continuing to save their land and people from the devouring mouth of the grey-hound ...the acute salinity and loss of greenness in the area. People are in the starving situation still crying to have a half-diet or a drop of life-saving drugs and this is fact to be seen in the aila-affected delta areas, K-Plot under Patharpratima Block ; Madhusudanpur & Nagenabad under Kultali CD Block, South 24 Parganas.

100 Days' Work under NREGA ; Aged people's Pensions, Widow's Stipend...all are in the prey of webs. Women & Children are struggling against a inhuman oppression and humiliation here just to be experienced ..!

We the social workers need all politics to be touched with a humane sentiments to draw our people's rights here in this point of view. All are to come forward to check the situation and serve the marginalised and the helpless humanity. Govt's position to be kept in its right track to curb the perils and anxieties in the hearts of human being. People's hopes and aspirations are to be restrained in a proper way of democratic dynamism..!

Food Security/Sovereignty should be kept promised as the common right of those people who are landless and poor(BPL); weaker and segmented at the bottom of our society. It's has the high time to raise a voice against atrocities & Child-abuse..!

Bio-inputs & compost manuring in an exhaustive manner are exclusively helping farmers of the cyclone, Aila-affected area in the Sunderbans. BTS has been experimenting it in the CD Block areas of Kultali & Patharpratima(K-Plot Island) with intensive supports from [AID-USA](#) , [PPI-USA](#) and [Tamilnadu Organic Farmers' Movement\(TOFM\)](#). Ms. Revathy from TOFM has visited thrice to train up the farmers to resist salinity and promote greenness apart from the Aila-ravages here. Sea/River-mud analysis with TOT for Bio-Inputs preparation-Team are on the move to equip the poor farm-families with **Organic Farming Process** so as they can save their land and green views here lost by the Aila-flood-water full of salinity. 11 Eco-Farmers Club have been formed to challenge the upcoming events as results of recent Climate Change. Local [Natural Resource Management through Farmers' School of Learning](#) is on a good progress to follow and learn..!

While a CDC(Community Delivery Centre) to promote Institutional Safe-Delivery in the rural revirine island block area of Kultali can serve the needy pregnant mothers to

have safe birth of their baby. The Deptt. of Health & F W , Govt. of West Bengal under RCH - II has ex-

tended the support to initiate such facilities.It's really a blessing to the rural mothers who used to have their child's birth in an unhygienic & unsafe place of a hut for a time immemorial.This is almost a door-step service to the rural pregnant mothers.There has a provision of JSY supports as declared by the Govt. of India.It has been inaugurated by the District Administration (CMOH) personnels in presence of the BMOH & local PRI Pradhan on dated 28th, June, 2010 and at the BTS-CDC there has been done 13th safe delivery of P-Mothers in the opening month.

BTS Strengthening Local Institutions (SLIs)

BTS has launched a new intervention of Strengthening Local Institutions(SLIs) like quality Education & proper feeding to the infants & P-Mothers under the Centrally sponsored scheme ICDS as joint venture with **WBKMS & Pratichi Trust**.Recent a joint meet in presence of Mrs. Anuradha Talawar, Advisor to Commissioner, Supreme

Court, Kumar Rana from Pratichi Trust, Susanta Giri, BTS,Jayanta Ghosh Majumdar of Sahayogi and others. The main agenda decided to monitor the Quality feeding of the

children and mobilize local mothers to treat the Centres not as a Kithuri Centre but more than that with providing quality education or to attract the children towards regular schooling etc.Besides this, BTS has been in its Extension Program for promoting Quality Education in the local Govt. aided Schools with supports from **Asha for Education USA**.
